SERIES 2510 PERCENT OXYGEN TRANSMITTER

Code	Description	
<p>2510</p> <p>Note: Use the configurator to obtain correct model number</p>	 <p><i>Pictured with optional sample system</i></p>	<p>The Series 2510 Percent Oxygen Transmitter is an AC or 24VDC powered percent oxygen transmitter. The Series 2510 enclosure is made from durable polycarbonate, and is rated for NEMA 4 (IP 66) service (may change with the addition of certain optional equipment). A 4-20 mADC Output is provided.</p> <p><i>Warranty: 2-year electronics and 1-year sensor</i></p>
Oxygen Range Options		
<i>(Standard Ranges 3-4 Weeks Lead Time)</i>		
C	0-10/100.0 Percent Switch Selectable (Calibrated and shipped on the 0-10 percent range, 4-20mA Output scaled based upon switch selection.) Replaces the previous "S" range.	
D	0-25/100.0 Percent Switch Selectable (Calibrated and shipped on the 0-25 percent range, 4-20mA Output scaled based upon switch selection.)	
E	0-50/100.0 Percent Switch Selectable (Calibrated and shipped on the 0-50 percent range, 4-20mA Output scaled based upon switch selection.)	
F	0-10/100.0 Percent Switch Selectable (Calibrated and shipped on the 0-100 percent range, 4-20mA Output scaled based upon switch selection.)	
<i>(Low Percent ranges A, B available as specials with 8-10 Weeks Lead Time)</i>		
A	0-2/100.0 Percent Switch Selectable (Calibrated and shipped on the 0-2 percent range, 4-20mA Output scaled based upon switch selection.)	
B	0-5/100.0 Percent Switch Selectable (Calibrated and shipped on the 0-5 percent range, 4-20mA Output scaled based upon switch selection.)	
Input Power Options		
A	24VDC Input	
C	115VAC Input – TO BE DISCONTINUED	
D	230VAC Input – TO BE DISCONTINUED	
U	Universal 90-264VDC Input - PENDING
